Hello,

Please see comments, edits in attached. Please let me know if you have any questions.

Thanks!

Deb

**Subject:** RE: formaldehyde susceptibility

Ok. I'll wait to hear from Barbara.

# Ex. 5 Deliberative Process (DP)

Currently, there is no citation for this statement.

**Subject:** Re: formaldehyde susceptibility

That's a Barbara question, but as it seems like those are the 2 'primary' studies substantiating that conclusion of 'moderate', it makes sense to me if you want to have them in there with the appropriate contextual wording ...

I have one version with strikeouts of citations.

Ex. 5 Deliberative Process (DP)

**Subject:** Re: formaldehyde susceptibility

I don't see specific citations in this paragraph in the version that is currently in the susceptibility section (which was from around a year ago); rather, the strikeouts I can currently find in there are related to the wording we are using for the evidence integration decisions.

Maybe there's something I'm missing?

**Subject:** RE: formaldehyde susceptibility

So I noticed in an old version of susceptibility that citations in this first paragraph had been struck out...this is from a year ago. For some reason, the strike outs didn't copy here, but they are on my version. Did you decide that you don't want citations in this opening paragraph as they were discussed in 1.2.2? Other citations still appear in this section.

One last question...there was a set of comments that didn't seem to be resolved.

## Ex. 5 Deliberative Process (DP)

So should I add text on this? I expect I can find in sharepoint document.

**Subject:** Re: formaldehyde susceptibility

Sure. The current version is the 'main text' one here:

[https://usepa.sharepoint.com/sites/ORD\\_Work/formaldehyde/SitePages/Home.aspx?RootFolder=%2Fsites%2FORD%5FWork%2Fformaldehyde%2FShared%20Documents%2FBarbara%20and%20Andrew%2FCurrent%20Version&FolderCTID=0x012000981EF3659A5BD94597A08C58869EFB8A&View=%7B098CD5B6%2D7E24%2D43E0%2DADCF%2DFE7E28D4F370%7D](https://usepa.sharepoint.com/sites/ORD_Work/formaldehyde/SitePages/Home.aspx?RootFolder=%2Fsites%2FORD%5FWork%2Fformaldehyde%2FShared%20Documents%2FBarbara%20and%20Andrew%2FCurrent%20Version&FolderCTID=0x012000981EF3659A5BD94597A08C58869EFB8A&View=%7B098CD5B6%2D7E24%2D43E0%2DADCF%2DFE7E28D4F370%7D)

If you want to try to just work in there you can, but it might be really slow.

Hi Deb,

I know that it's been awhile since you last worked on this section. Barbara and I had a chance to go through the susceptible populations and lifestages section considering the current draft of the other sections, and suggest some edits (attached). I cut out the section in track changes, as the ongoing work Barbara and I are doing in the draft makes it difficult to work in the current SharePoint version. After you get a chance to look over and edit the attached, we can stick it back in.

Thanks so much!

-Barbara and Andrew
